16:45 – 17:15 TEPARG Business Meeting

17:15 – 18:30 *Drinks*

<sup>Δ</sup> **Hybrid anatomy** in the context of this meeting: A blended approach of learning and teaching anatomy using a combination of face-to-face and online teaching through diverse media.

<sup>ΔΔ</sup> **Manipulative therapies** in the context of this meeting: any healthcare professional training which uses functional anatomy through a range of different modalities (e.g., physiotherapy, chiropractic, occupational therapy, etc.)

*\*Prizes:*

- ❖ *Two Student/Junior investigator Prizes for the best oral presentations will be awarded during the meeting. Each will receive €250 as part payment for their research expenses.*
- ❖ *We may also award any number of Certificates of Merit for outstanding work. These will have no monetary value, but the winners will receive Certificates and their names will be published on the TEPARG website.*

*\*\* We are inviting short pre-recorded contributions (ca 5 min) of examples of online technologically-related teaching solutions for delivering anatomy education in a hybrid (or fully online) manner. These will be showcased prior to the meeting on the TEPARG website and available for viewing at the meeting, with the aim of collating a repository of solutions that range from those available for free and those that require institutional investment. Please break down the recording into three parts: (1) Technology solution, (2) How it has been used – exemplify with a screen recording or other video clip and (3) Pros and Cons relating to the solution exemplified*
